

IMMEDIATE LEASE REQUIREMENT

Magic Noodle is the answer to an increasing demand for traditional Lan Zhou hand-pulled and hand-sliced noodles. These noodles are made fresh daily in the restaurants by Noodle Masters that have been trained for six months to a year making and stretching the noodles. These noodles are the basis of all the delicious dishes with authentic flavours and great value. Each restaurant provides visually inspiring ambience with every dining experience. They have stepped away from the hand-made machine pastas and have brought the authenticity into their core business.
